

# INTEOS® - Humerus Plate 3.5

innovative proximal Humerus Plating System

# Advantages of the INTEOS® Humerus Plate 3.5 prox.

The INTEOS® Humerus Plate 3.5 prox. of Hofer Medical Solutions is characterized by its easy implantation technique as a result of pre-angled holes. **Fixed-angle & multidirectional** implantation techniques are as standard.

The INTEOS® Humerus Plate 3.5 prox. fulfills the high **ESS** requirements of Hofer Medical Solutions.

INTEOS® - Technology

## Plate features

- Anatomically shaped plating system for the right and left humerus bone
- Orientation of the plate position nearby the sulcus bicipitalis for easy re-alignment of the fracture
- Pre-angulated holes with guided insertion device and optimized screw orientation
- Screw pairs crossed over one another ensure simultaneous higher resistance against misplacement of the head fragment and minimized risk of the screw moving into the joint
- Possibility of individual screw placement without the help of the guided insertion device but still with high angle flexibility
- Slimmer distal end of the plate for lower alteration of the deltoid muscle

## Screw features

- Rounded screw head
- Non-invasive screw tip
- „Stick fit” - the stable connection between screw driver and screw
- ForceDrive IO

Fixed-angle and multidirectional functionality as a result of the INTEOS® Small Fragment System standard

Exact anatomical fit with mandatory definition of the side

Increased stability of the system due to improved placement of the screws

Innovative screw placement for safe support of the joint

## creating partnership

For us, a partnership is the result of a long and happy relationship in all areas of our work. Reliable bone healing for patients, optimal handling of the systems for surgeons and surgical personnel, as well as the simple preparation of the instruments, constantly strengthen this partnership.

For us, "creating" means more than just finding solutions in the form of innovative products.

It is the result of high standards, constant development, innovative products and excellent service for patients, surgeons and surgical personnel around the clock.

Please do not hesitate to contact us if you have questions about our company, our employees or our production methods.
